Bridge Boulevard Reconstruction
Coors Boulevard to 8th Street
Welcome and Introductions
Purpose of Meeting

- Explain project process and phasing
- Obtain public input for Environmental Documentation
- Discuss design of Segment 1
- Review previous input on roadway concepts
  - Verify concerns
  - Obtain additional comment
History

- Integrated Plan
- This project is for the design and construction of the roadway improvements.
Project Limits

- Segment 1: Coors Boulevard to Goff Boulevard
- Segment 2: Goff Boulevard to Cannon Road
- Segment 3: Cannon Road to La Vega Drive
- Segment 4: La Vega Drive to 8th Street
Project Development Process

"Umbrella" Environmental Assessment

Segment 1
Preliminary engineering and environmental document
Final design and preparation of construction contract documents
Right-of-way acquisition not anticipated
Construction

Segment TBD
Preliminary engineering and environmental document
Final design, preparation of construction contract documents, and right-of-way acquisition
Construction

Segment TBD
Preliminary engineering and environmental document
Final design, preparation of construction contract documents, and right-of-way acquisition
Construction

Segment TBD
Preliminary engineering and environmental document
Final design, preparation of construction contract documents, and right-of-way acquisition
Construction

Public Input
Segment 1 Conceptual Plans

- Tower Road from Coors Boulevard to Old Coors Drive
- Bridge Boulevard from Old Coors Drive to Goff Boulevard

Segment 1 Conceptual Plans
Benefits of Improvements

1. Increased safety
   - Pedestrian Lighting
   - Improved Drainage
   - Reduced Vehicle Speeds

2. Reduced Congestion
   - Improved Traffic Flow
   - ITS Linked Signals
   - Access Control

3. Increased Mode share
   - Improved ADA/Pedestrian Access
   - Safer Bicycle Facilities
   - Enhanced Transit Stops
Public Input

- Redevelopment Plan
  - 4 Public Meetings
  - Charrette
  - 14 Steering Committee Meetings
  - Speakers at County Planning Commission and Board of Commissioners' Hearings
Previous Public Input

- Respecting the character of the South Valley - celebrate the agricultural tradition, open space, and acequias
- Aesthetics
- Balance commuting needs and retail needs with regards to traffic
- Roundabouts/intersection configurations
- Right-of-Way requirements
- Access from Five Points to Bridge Boulevard
- Tower Road alignment and access to and from Bridge Boulevard west of Old Coors Road
- Access to businesses
- Underground infrastructure
- Construction impacts
Next Steps/Open Discussion
